

Revit 201

Revit 201 is an online series of 90 minute classes on diverse Revit topics covering all disciplines. Each class is designed to give you specific, improved results in your use of Revit, helping you truly gain the benefits of this powerful tool. The professionals on our training staff understand your real world needs, and how Revit can help realize them.

Classes are delivered live and online. You can interact with the instructor right from your own office, while eliminating travel time. Because the class schedule rotates, you can easily select your topics of interest and choose the Tuesday which best meets your schedule.

“[The instructor] did a great job of stopping after each topic to ask for questions. It was helpful and more interactive.”

—Boon Sramala, Rumsey Engineers

TOOLS

With a specific focus on Building Information Modeling (BIM), Ideate is also developer of Ideate Explorer for Revit, the simple, powerful tool that helps Revit® users explore, quantify and manage the 10,000+ building elements in a Revit building information model. Ideate Explorer is a division of Ideate, Inc.

Ideate Stands Committed to BIM and Committed to You

As a core design methodology, Building Information Modeling (BIM) is distinguished by intelligent, three-dimensional, parametric object-based design such that a change anywhere in the BIM model is a change everywhere, automatically and instantly. BIM allows a single virtual model to be shared between all AEC contributors, with each discipline able to contribute information and track all changes. Throughout the building lifecycle – concept, construction to decommissioning – BIM minimizes information loss and delivers extensive, immediately applicable information about project scope, schedule and cost.

Ideate, Inc. is the industry leader in Autodesk Revit implementations for BIM.

Ideate, Inc. solutions combine software and services specifically designed to help your business compete and succeed. To explore all Ideate brings you, visit www.ideateinc.com.
